§ 324.36109. Credit against state income tax or former state single business tax act or Michigan business tax act.

(1) An owner of farmland and related buildings subject to 1 or more development rights agreements under section 36104 or agricultural conservation easements or purchases of development rights under section 36111b or 36206 who is required or eligible to file a return as an individual or a claimant under the state income tax act may claim a credit against state income tax liability for the amount by which the property taxes on the land and structures used in the farming operation, including the homestead, restricted by the development rights agreements, agricultural conservation easements, or purchases of development rights exceed 3.5% of the household income as defined in section 508 of the income tax act of 1967, 1967 PA 281, MCL 206.508, excluding a deduction if taken under section 613 of the internal revenue code of 1986, 26 USC 613. For the purposes of this section, all of the following apply:

(a) A partner in a partnership is considered an owner of farmland and related buildings owned by the partnership and covered by a development rights agreement, agricultural conservation easement, or purchase of development rights. A partner is considered to pay a proportion of the property taxes on that property equal to the partner's share of ownership of capital or distributive share of ordinary income as reported by the partnership to the Internal Revenue Service or, if the partnership is not required to report that information to the Internal Revenue Service, as provided in the partnership agreement or, if there is no written partnership agreement, a statement signed by all the partners. A partner claiming a credit under this section based upon the partnership agreement or a statement shall file a copy of the agreement or statement with his or her income tax return. If the agreement or statement is not filed, the department of treasury shall deny the credit. All partners in a partnership claiming the credit allowed under this section shall compute the credit using the same basis for the apportionment of the property taxes.

(b) A shareholder of a corporation that has filed a proper election under subchapter S of chapter 1 of subtitle A of the internal revenue code of 1986, 26 USC 1361 to 1379, is considered an owner of farmland and related buildings covered by a development rights agreement that are owned by the corporation. A shareholder is considered to pay a proportion of the property taxes on that property equal to the shareholder's percentage of stock ownership for the tax year as reported by the corporation to the internal revenue service. Except as provided in subsection (8), this subdivision applies to tax years beginning after 1987.

(c) Except as otherwise provided in this subdivision, an individual in possession of property for life under a life estate with remainder to another person or holding property under a life lease is considered the owner of that property if it is farmland and related buildings covered by a development rights agreement. Beginning January 1, 1986, if an individual in possession of property for life under a life estate with remainder to another person or holding property under a life lease enters into a written agreement with the person holding the remainder interest in that land and the written agreement apportions the property taxes in the same manner as revenue and expenses, the life lease or life estate holder and the person holding the remainder interest may claim the credit

under this act as it is apportioned to them under the written agreement upon filing a copy of the written agreement with the return.

(d) If a trust holds farmland and related buildings covered by a development rights agreement and an individual is treated under subpart E of subchapter J of subchapter A of chapter 1 of the internal revenue code of 1986, 26 USC 671 to 679, as the owner of that portion of the trust that includes the farmland and related buildings, that individual is considered the owner of that property.

(e) An individual who is the sole beneficiary of a trust that is the result of the death of that individual's spouse is considered the owner of farmland and related buildings covered by a development rights agreement and held by the trust if the trust conforms to all of the following:

(i) One hundred percent of the trust income is distributed to the beneficiary in the tax year in which the trust receives the income.

(ii) The trust terms do not provide that any portion of the trust is to be paid, set aside, or otherwise used in a manner that would qualify for the deduction allowed by section 642(c) of the internal revenue code of 1986, 26 USC 642.

(f) A member in a limited liability company is considered an owner of farmland and related buildings covered by a development rights agreement that are owned by the limited liability company. A member is considered to pay a proportion of the property taxes on that property equal to the member's share of ownership or distributive share of ordinary income as reported by the limited liability company to the Internal Revenue Service.

(2) An owner of farmland and related buildings subject to 1 or more development rights agreements under section 36104 or agricultural conservation easements or purchases of development rights under section 36111b or 36206 to whom subsection (1) does not apply may claim a credit under the former single business tax act, 1975 PA 228, or the Michigan business tax act, 2007 PA 36, MCL 208.1101 to 208.1601, for the amount by which the property taxes on the land and structures used in farming operations restricted by the development rights agreements, agricultural conservation easements, or purchases of development rights exceed 3.5% of the adjusted business income of the owner as defined in section 36 of the former single business tax act, 1975 PA 228, or the business income tax base of the owner as defined in section 201 of the Michigan business tax act, 2007 PA 36, MCL 208.1201, plus compensation to shareholders not included in adjusted business income or the business income tax base, excluding any deductions if taken under section 613 of the internal revenue code of 1986, 26 USC 613. When calculating adjusted business income for tax years beginning before 1987, federal taxable income shall not be less than zero for the purposes of this subsection only. A participant is not eligible to claim a credit and refund against the former single business tax act, 1975 PA 228, or the Michigan business tax act, 2007 PA 36, MCL 208.1101 to 208.1601, unless the participant demonstrates that the participant's agricultural gross receipts of the farming operation exceed 5 times the property taxes on the land for each of 3 out of the 5 tax years immediately preceding the year in which the credit is claimed. This eligibility requirement does not apply to those participants who executed farmland development rights agreements under this part before January 1, 1978. A participant may compare, during the contract period, the average of the most recent 3 years of agricultural gross receipts to property taxes in the first year that the participant entered the program under the present contract in calculating the gross receipts qualification. Once an election is made by the participant to compute the benefit in this manner, all future calculations shall be made in the same manner.

(3) If the farmland and related buildings covered by a development rights agreement under section 36104 or an agricultural conservation easement or purchase of development rights under section 36111b or 36206 are owned by more than 1 owner, each owner is allowed to claim a credit under this section based upon that owner's share of the property tax payable on the farmland and related

buildings. The department of treasury shall consider the property tax equally apportioned among the owners unless a written agreement signed by all the owners is filed with the return, which agreement apportions the property taxes in the same manner as all other items of revenue and expense. If the property taxes are considered equally apportioned, a husband and wife shall be considered 1 owner, and a person with respect to whom a deduction under section 151 of the internal revenue code of 1986, 26 USC 151, is allowable to another owner of the property shall not be considered an owner.

(4) A beneficiary of an estate or trust to which subsection (1) does not apply is entitled to the same percentage of the credit provided in this section as that person's percentage of all other distributions by the estate or trust.

(5) If the allowable amount of the credit claimed exceeds the state income tax or the state business tax otherwise due for the tax year or if there is no state income tax or the state business tax due for the tax year, the amount of the claim not used as an offset against the state income tax or the state business tax, after examination and review, shall be approved for payment to the claimant pursuant to 1941 PA 122, MCL 205.1 to 205.31. The total credit allowable under this part and chapter 9 of the income tax act of 1967, 1967 PA 281, MCL 206.501 to 206.532, or the former single business tax act, 1975 PA 228, or the Michigan business tax act, 2007 PA 36, MCL 208.1101 to 208.1601, shall not exceed the total property tax due and payable by the claimant in that year. The amount the credit exceeds the property tax due and payable shall be deducted from the credit claimed under this part.

(6) For purposes of audit, review, determination, appeals, hearings, notices, assessments, and administration relating to the credit program provided by this section, the state income tax act, the former single business tax act, 1975 PA 228, or the Michigan business tax act, 2007 PA 36, MCL 208.1101 to 208.1601, applies according to which tax the credit is claimed against. If an individual is allowed to claim a credit under subsection (1) based upon property owned or held by a partnership, S corporation, or trust, the department of treasury may require that the individual furnish it with a copy of a tax return, or portion of a tax return, and supporting schedules that the partnership, S corporation, or trust files under the internal revenue code.

(7) The department of treasury shall account separately for payments under this part and not combine them with other credit programs. A payment made to a claimant for a credit claimed under this part shall be issued by 1 or more warrants made out to the county treasurer in each county in which the claimant's property is located and the claimant, unless the claimant specifies on the return that a copy of the receipt showing payment of the property taxes that became a lien in the year for which the credit is claimed, or that became a lien in the year before the year for which the credit is claimed, is attached to the income tax or business tax return filed by the claimant. If the claimant specifies that a copy of the receipt is attached to the return, the payment shall be made directly to the claimant. A warrant made out to a claimant and a county treasurer shall be used first to pay delinquent property taxes, interest, penalties, and fees on property restricted by the development rights agreement. If the warrant exceeds the amount of delinquent taxes, interest, penalties, and fees, the county treasurer shall remit the excess to the claimant. If a claimant falsely specifies that the receipt showing payment of the property taxes is attached to the return and if the property taxes on the land subject to that development rights agreement were not paid before the return was filed, all future payments to that claimant of credits claimed under this act attributable to that development rights agreement may be made payable to the county treasurer of the county in which the property subject to the development rights agreement is located and to that claimant.

(8) For property taxes levied after 1987, a person that was an S corporation and had entered into a development rights agreement before January 1, 1989, and paid property taxes on that property, may claim the credit allowed by this section as an owner eligible under subsection (2). A subchapter S

corporation claiming a credit as permitted by this subsection for taxes levied in 1988 through 1990 shall claim the credit by filing an amended return under the former single business tax act, 1975 PA 228. If a subchapter S corporation files an amended return as permitted by this subsection and if a shareholder of the subchapter S corporation claimed a credit under subsection (1)(b) for the same property taxes, the shareholder shall file an amended return under the state income tax act. A subchapter S corporation is not entitled to a credit under this subsection until all of its shareholders file the amended returns required by this subsection. The department of treasury shall first apply a credit due to a subchapter S corporation under this subsection to repay credits claimed under this section by the subchapter S corporation's shareholders for property taxes levied in 1988 through 1990 and shall refund any remaining credit to the S corporation. Interest or penalty is not due or payable on an income tax liability resulting from an amended return required by this subsection. A subchapter S corporation electing to claim a credit as an owner eligible under subsection (2) shall not claim a credit under subsection (1) for property taxes levied after 1987.

§ 324.36110. Sale of land; notice; death or disability of owner; division into smaller parcels of land; "individual essential to the operation of a farm" defined; charge of fee prohibited.

(1) Land subject to a development rights agreement or easement may be sold without penalty under sections 36111, 36112, and 36113, if the use of the land by the successor in title complies with the provisions contained in the development rights agreement or easement. The seller shall notify the governmental authority having jurisdiction over the development rights of the change in ownership.

(2) If the owner of land subject to a development rights agreement or easement dies or becomes totally and permanently disabled or when an individual essential to the operation of the farm dies or becomes totally and permanently disabled, the land may be relinquished from the program under this part and is subject to a lien pursuant to sections 36111(11), 36112(7), and 36113(7). A request for relinquishment under this section shall be made within 3 years from the date of death or disability. A request for relinquishment under this subsection shall be made only by the owner in case of a disability or, in case of death, the person who becomes the owner through survivorship or inheritance.

(3) If an owner of land subject to a development rights agreement becomes totally and permanently disabled or dies, land containing structures that were present before the recording of the development rights agreement may be relinquished from the agreement, upon request of the disabled agreement holder or upon request of the person who becomes an owner through survivorship or inheritance, and upon approval of the local governing body and the state land use agency. Not more than 2 acres may be relinquished under this subsection unless additional land area is needed to encompass all of the buildings located on the parcel, in which case not more than 5 acres may be relinquished. If the parcel proposed to be relinquished is less in area than the minimum parcel size required by local zoning, the parcel may not be relinquished unless a variance is obtained from the local zoning board of appeals to allow for the smaller parcel size. The portion of the farmland relinquished from the development rights agreement under this subsection is subject to a lien pursuant to section 36111(11).

(4) The land described in a development rights agreement may be divided into smaller parcels of land and continued under the same terms and conditions as the original development rights agreement. The smaller parcels created by the division must meet the minimum requirements for being enrolled under

this act or be 40 acres or more in size. Farmland may be divided once under this subsection without fee by the state land use agency. The state land use agency may charge a reasonable fee not greater than the state land use agency's actual cost of dividing the agreement for all subsequent divisions of that farmland. When a division of a development rights agreement is made under this subsection and is executed and recorded, the state land use agency shall notify the applicant, the local governing body and its assessing office, all reviewing agencies, and the department of treasury.

(5) As used in this section, "individual essential to the operation of the farm" means a co-owner, partner, shareholder, farm manager, or family member, who, to a material extent, cultivates, operates, or manages farmland under this part. An individual is considered involved to a material extent if that individual does 1 or more of the following:

(a) Has a financial interest equal to or greater than 1/2 the cost of producing the crops, livestock, or products and inspects and advises and consults with the owner on production activities.

(b) Works 1,040 hours or more annually in activities connected with production of the farming operation.

(6) The state land use agency shall not charge a fee to process a change of ownership under subsection (1) or a division under subsection (4).

History: Add. 1995, Act 59, Imd. Eff. May 24, 1995 ;-- Am. 1996, Act 233, Imd. Eff. June 5, 1996 ;-- Am. 2016, Act 265, Eff. Sept. 26, 2016.

§ 324.36111. Expiration or relinquishment of development rights agreement.

(1) A development rights agreement expires at the expiration of the term of the agreement unless renewed with the consent of the owner of the land. If the owner of the land has complied with the requirements of this part regarding development rights agreements, the owner is entitled to automatic renewal of the agreement upon written request of the owner. A development rights agreement may be renewed for a term of not less than 7 years. If a development rights agreement is renewed, the state land use agency shall send a copy of the renewal contract to the local governing body.

(2) A development rights agreement or a portion of the farmland covered by a development rights agreement may be relinquished as provided in this section and section 36111a. Farmland may be relinquished by this state before a termination date contained in the instrument under either of the following circumstances:

(a) If approved by the local governing body and the state land use agency, land containing structures that were present before the recording of the development rights agreement may be relinquished from the agreement. Not more than 2 acres may be relinquished under this subdivision unless additional land area is needed to encompass all of the buildings located on the parcel, in which case not more than 5 acres may be relinquished. If the size of the parcel proposed to be relinquished is less than that required by local zoning, the parcel shall not be relinquished unless a variance is obtained from the local zoning board of appeals to allow for the smaller parcel size.

(b) If approved by the local governing body and the state land use agency, land may be relinquished from the agreement for the construction of a residence by an individual essential to the operation of the farm as defined in section 36110(5). Not more than 2 acres may be relinquished under this subdivision. If the size of the parcel proposed to be relinquished is less than that required by local zoning, the parcel shall not be relinquished unless a variance is obtained from the local zoning board of appeals to allow for the smaller parcel size.

(3) Until April 1, 1997, if an owner who entered into or renewed a development rights agreement before April 15, 1994 makes a request, in writing, to the state land use agency, to terminate that development rights agreement with respect to all or a portion of the farmland covered by the agreement, the state land use agency shall approve the request and relinquish that farmland from the development rights agreement. If farmland is relinquished under this subsection, the state land use agency shall notify the local governing body of the local unit of government in which the land is located of the relinquishment.

(4) If the request for relinquishment of the development rights agreement is approved, the state land use agency shall prepare an instrument, subject to subsections (5) to (8), and shall forward the original relinquishment instrument to the applicant. The applicant shall have the relinquishment instrument recorded by the register of deeds in the county in which the property is located. The applicant shall provide a copy of the recorded relinquishment instrument to the department.

(5) If a development rights agreement or a portion of a development rights agreement is to be relinquished pursuant to subsection (2) or section 36111a, the state land use agency shall record a lien against the property formerly subject to the development rights agreement for the total amount of the allocated tax credit of the last 7 years, including the year of termination, received by an owner under section 36109 and attributable to the property formerly subject to the development rights agreement, plus interest at the rate of 6% per annum simple interest from the time the credit was received until the lien is placed on the property.

(6) If the property being relinquished from the development rights agreement is less than all of the property subject to that development rights agreement, the allocated tax credit for the development rights agreement shall be multiplied by the property's share of the taxable value of the agreement. As used in this subsection:

(a) "The allocated tax credit" means the amount obtained by multiplying the owner's total farmland preservation credit claimed in that year on all agreements by the quotient of the ad valorem property tax levied in that year on property subject to the development rights agreement that included the property being relinquished from the agreement divided by the total property taxes levied on property subject to any development rights agreement and used in determining the farmland preservation credit in that year.

(b) "The property's share of the taxable value of the agreement" means the quotient of the taxable value of the property being relinquished from the agreement divided by the total taxable value of property subject to the development rights agreement that included the property being relinquished from the agreement. For years before 1995, taxable value means assessed value.

(7) Thirty days before the recording of a lien under this section, the state land use agency shall notify the owner of the farmland subject to the development rights agreement of the amount of the lien, including interest, if any. If the lien amount is paid before 30 days after the owner is notified, the lien shall not be recorded. The lien may be paid and discharged at any time and is payable to the state by the owner of record when the land or any portion of it is sold by the owner of record, or if the land is converted to a use prohibited by the former development rights agreement. The lien shall be discharged upon renewal or reentry in a development rights agreement, except that a subsequent lien shall not be less than the lien discharged. Notwithstanding any other provision of this section, from July 1, 2011 through September 30, 2011, a lien under this section recorded before January 1, 2011 may be paid at 85% of the face value of the lien. From October 1, 2011 through March 31, 2012, a lien under this section recorded before January 1, 2011 may be paid at 90% of the face value of the lien.

(8) Upon the termination of all or a portion of the development rights agreement under subsection (3) or, subject to subsection (14), the termination of a development rights agreement under subsection (1), the state land use agency shall prepare and record a lien, if any, against the property formerly subject to

the development rights agreement for the total amount of the allocated tax credit of the last 7 years, including the year of termination, received by the owner under section 36109, attributable to the property formerly subject to the development rights agreement. The lien shall be without interest or penalty and is payable as provided in subsection (7). However, if the development rights agreement was approved or rejected by the local governing body under section 36104 on or after July 1, 2012 and is terminated under subsection (1), the amount of the lien shall include interest at the current monthly interest rate of 1 percentage point above the adjusted prime rate per annum from the time the lien is recorded until it is paid. The adjusted prime rate shall be determined as provided in section 23 of 1941 PA 122, MCL 205.23.

(9) The state land use agency shall notify the department of treasury of the termination of a development rights agreement.

(10) The unappropriated proceeds from lien payments made under this part shall be forwarded to the state treasurer for deposit in the agricultural preservation fund created in section 36202.

(11) Upon the relinquishment of all of the farmland under section 36110(2) or a portion of the farmland under section 36110(3), the state land use agency shall prepare and record a lien against the property formerly subject to a development rights agreement in an amount calculated as follows:

(a) Establishing a term of years by multiplying 7 by a fraction, the numerator of which is the number of years the farmland was under the development rights agreement, including any extensions, and the denominator of which is the number representing the term of years of that agreement, including any extensions.

(b) The lien amount equals the total amount of the allocated tax credit claimed attributable to that development rights agreement in the immediately preceding term of years as determined in subdivision (a).

(12) When a lien is paid under this section, the state land use agency shall prepare and record a discharge of lien with the register of deeds in the county in which the land is located. The discharge of lien shall specifically state that the lien has been paid in full, that the lien is discharged, that the development rights agreement and accompanying contract are terminated, and that the state has no further interest in the land under that agreement.

(13) A farmland development rights agreement is automatically relinquished when the farmland becomes subject to an agricultural conservation easement or purchase of development rights under section 36111b or 36206.

(14) If, upon expiration of the term of a farmland development rights agreement, the farmland becomes subject to an agricultural conservation easement or purchase of development rights under section 36111b or 36206 or if a farmland development rights agreement is automatically relinquished under subsection (13), the farmland is not subject to a lien under this section.

§ 324.36111a. Relinquishment of development rights agreement; conditions; “economic viability” defined.

(1) Upon request from a landowner and a local governing body, the state land use agency shall relinquish farmland from the development rights agreement if 1 or both of the following occur:

- (a) The local governing body determines 1 or more of the following:
- (i) That, because of the quality of the farmland, agricultural production cannot be made economically viable with generally accepted agricultural and management practices.
 - (ii) That surrounding conditions impose physical obstacles to the agricultural operation or prohibit essential agricultural practices.
 - (iii) That significant natural physical changes in the farmland have occurred that are generally irreversible and permanently limit the productivity of the farmland.
 - (iv) That a court order restricts the use of the farmland so that agricultural production cannot be made economically viable.

(b) The local governing body determines that the relinquishment is in the public interest and that the farmland to be relinquished meets 1 or more of the following conditions:

- (i) The farmland is to be owned, operated, and maintained by a public body for a public use.
- (ii) The farmland had been zoned for the immediately preceding 3 years for a commercial or industrial use.

(iii) The farmland is zoned for commercial or industrial use and the relinquishment of the farmland will be mitigated by 1 of the following means:

(A) For every 1 acre of farmland to be relinquished, an agricultural conservation easement will be acquired over 2 acres of farmland of comparable or better quality located within the same local unit of government where the farmland to be relinquished is located. The agricultural conservation easement shall be held by the local unit of government where the farmland to be relinquished is located or, if the local governing body declines to hold the agricultural conservation easement, by the state land use agency.

(B) If an agricultural conservation easement cannot be acquired as provided under subparagraph (A), there will be deposited into the state agricultural preservation fund created in section 36202 an amount equal to twice the value of the development rights to the farmland being relinquished, as determined by a certified appraisal.

(iv) The farmland is to be owned, operated, and maintained by an organization exempt from taxation under section 501(c)(3) of the internal revenue code of 1986, 26 U.S.C. 501, and the relinquishment will be beneficial to the local community.

(2) In determining public interest under subsection (1)(b), the governing body shall consider all of the following:

- (a) The long-term effect of the relinquishment upon the preservation and enhancement of agriculture in the surrounding area, including any nonfarm encroachment upon other agricultural operations in the surrounding area.
- (b) Any other reasonable and prudent site alternatives to the farmland to be relinquished.
- (c) Any infrastructure changes and costs to the local governmental unit that will result from the development of the farmland to be relinquished.

(3) If a landowner's relinquishment application under this section is denied by the local governing body, the landowner may appeal that denial to the state land use agency. In determining whether to grant the appeal and approve the relinquishment, the state land use agency shall follow the criteria established in subsection (1)(a) or follow the criteria in subsection (1)(b) and consider the factors described in subsection (2).

(4) The state land use agency shall review an application approved by the local governing body to verify that the criteria provided in subsection (1)(a) were met or the criteria in subsection (1)(b) were met and the factors in subsection (2) were considered. If the local governing body did not render a determination in accordance with this subsection, the state land use agency shall not relinquish the farmland from the development rights agreement.

(5) A local governing body may elect to waive its right to make a relinquishment determination under subsection (1)(a) or (b) by providing written notice of that election to the state land use agency. The written notice shall grant the state land use agency sole authority to grant or deny the application as provided in this section.

(6) A decision by the state land use agency to grant or deny an application for relinquishment under this section that adversely affects a land owner or a local governing body is subject to a contested case hearing as provided under this act and the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(7) As used in this section, "economic viability" means that the cash flow returning to the farming operation is positive. The local governing body or state land use agency shall evaluate an application for relinquishment, and determine the economic viability of the affected farming operation, by doing all of the following:

(a) Estimating crop, livestock, or product value of the farmland using locally accepted production methods and local United States department of agriculture yield capabilities for the specific soil types and average price for crop, livestock, or product over the past 5 years.

(b) Adding average yearly property tax credits afforded by the development rights agreement over the immediately preceding 5-year period.

(c) Subtracting estimated expenses directly attributed to the production of the crop, livestock, or product, including, but not limited to, seed, fertilizer, insecticide, building and machinery repair, drying, trucking, and property taxes.

(d) Subtracting the estimated cost of the operator's labor and management time at rates established by the United States department of agriculture for "all labor", Great Lakes area, as published in the United States department of agriculture labor reports.

(e) Subtracting typical capital replacement cost per acre of nonland assets using a useful life depreciation rate for comparable farming operations.

§ 324.36111b. Development rights or acquisition of agricultural conservation easements; application; selection criteria and scoring system; notification; points; determination of development rights value; approval by director; installment purchase plan; provisions for protection of farmland; termination of easements; value development rights in event of condemnation.

(1) An application submitted under section 36111(10) for purchase of development rights or acquisition of agricultural conservation easements shall be evaluated and ranked according to selection criteria and a scoring system approved by the commission of agriculture. In developing a point system for selecting the parcels for purchase of development rights or the acquisition of agricultural conservation easements, the department of agriculture shall seek the assistance of the department of natural resources, Michigan state university, the United States department of agriculture-natural resources conservation service, and other appropriate professional and industry organizations. The selection

criteria shall give consideration to the quality and physical characteristics of the parcel as well as surrounding land uses and threat of development.

(2) The department of agriculture shall prepare a notification to those individuals whose farmland development rights agreements are expiring in the year of application or expiring 1 year after the year of application. The notice shall be completed not less than 90 days before an application deadline set by the department of agriculture and shall include written information and details regarding the program. Applications for the purchase of development rights or the acquisition of agricultural conservation easements shall be submitted to the department of agriculture by the owner of that land and must include written support by the local governing body.

(3) In developing a scoring system, points shall be given to farmland that meets 1 or more of the following criteria, with subdivision (a) given priority over subdivisions (b) to (e):

(a) Productive capacity of farmland suited for the production of feed, food, and fiber, including, but not limited to, prime or unique farmland or farmland of local importance, as defined by the United States department of agriculture-natural resources conservation service.

(b) Lands that are enrolled under this act.

(c) Prime agricultural lands that are faced with development pressure that will permanently alter the ability for that land to be used for productive agricultural activity.

(d) Parcels that would complement and are part of a documented, long-range effort or plan for land preservation by the local governing body.

(e) Parcels with available matching funds from the local governing body, private organizations, or other sources.

(4) For purposes of subsections (7) and (8), the value of development rights in the purchase of development rights or the acquisition of agricultural conservation easements shall be determined by subtracting the current fair market value of the property without the development rights from the current fair market value of the property with all development rights.

(5) The director of the department of agriculture shall approve individual parcels for the purchase of development rights or the acquisition of agricultural conservation easements based upon the adopted selection criteria and scoring process. The commission of agriculture shall approve a method to establish the price to be paid for the purchase of development rights or the acquisition of agricultural conservation easements, such as via appraisal, bidding, or a formula-based process and shall establish the maximum price to be paid on a per purchase basis from the lien fund. The director of the department of agriculture, after negotiations with the landowner, shall approve the price to be paid for purchase of development rights or the acquisition of the agricultural conservation easements. Proper releases from mortgage holders and lienholders must be obtained and executed to ensure that all development rights are purchased free and clear of all encumbrances.

(6) The department may purchase the agricultural conservation easement through an installment purchase agreement under terms negotiated by the department.

(7) An agricultural conservation easement shall include appropriate provisions for the protection of the farmland and other unique and critical benefits. An agricultural conservation easement may be terminated if the land, as determined by the commission of agriculture, meets 1 or more of the criteria described in section 36111a(1)(a) to (d). An agricultural conservation easement or portion of an agricultural conservation easement shall not be terminated unless approved by the local governing body and the commission of natural resources and the commission of agriculture. If an agricultural conservation easement is terminated, the current fair market value of the development rights, at the

time of termination, shall be paid to the state land use agency. Any payment received by the state land use agency under this part shall be used to acquire agricultural conservation easements on additional farmland under section 36111(10).

(8) Whenever a public entity, authority, or political subdivision exercises the power of eminent domain and condemns land enrolled under this act, the value of the land shall include the value of development rights covered by development rights agreements or agricultural conservation easements. If the development rights have been purchased or agricultural conservation easements have been acquired under section 36111(10), the value of the development rights at the time of condemnation shall be paid to the state land use agency and any payment received by the state land use agency shall be used to acquire agricultural conservation easements on additional land under section 36111(10).

§ 324.36112. Relinquishment of open space development rights easement pursuant to MCL 324.36105.

(1) An open space development rights easement pursuant to section 36105 shall be relinquished by the state at the expiration of the term of the easement unless renewed with the consent of the owner of the land. If the owner of the land has complied with the requirements of this part regarding open space development rights easements, the owner is entitled to automatic renewal of the agreement upon written request of the landowner.

(2) An open space development rights easement may be relinquished by the state prior to a termination date contained in the instrument as follows:

(a) At any time the state determines that the development of the land is in the public interest and in agreement with the owner of the land.

(b) The owner of the land may submit an application to the local governing body where the original application for an open space development rights easement was submitted requesting that the development rights easement be relinquished.
